

Mise à jour les fingerprint des disques dans Proxmox (12/4/24) (1)

Problème:

Description: Sur le disque de stockage, on a un petit symbole d'interrogation

Solution: Il faut renouveler les fingerprints des disques

Etapes:

- S'authentifier dans le disque cible: ex: Datastore_pbs_1:

https://adresse_du_disque_cible/:
Login: nom_utilisateur / mot de passe:mot_de_passe

- Après authentification, Dashboard>Show fingerprint

Name	Size	Used	Available	Usage %	Estimated Full	History (last Month)
BackupPBS1	5.86 TB	5.19 TB	668.94 GB	88.53%	in 27d 3h 49m	
BackupPBS2	5.86 TB	4.78 TB	1.08 TB	81.58%	in 20d 11h 32m	

- Revenir dans Proxmox serveur:
Datacenter>Storage>Datastore_pbs_1>Edit>coller le fingerprint

The screenshot shows the Proxmox Virtual Environment 7.4-16 interface. The left sidebar is titled "Server View" and includes sections for Datacenter (pvecluster), ns3107587, and various system components like Network, CPU, Memory, and Storage. The main area is titled "Datacenter" and shows a list of storage configurations:
